PROFESSIONAL SUMMARY

Technical Lead with 12+ years of experience delivering enterprise and consumer web applications across social commerce, retail, media, oil and gas, and payments. Hands-on experience with React.js, Next.js, TypeScript, Angular and MongoDB, supported by Node.js and Express.js backend development. Led six frontend and backend engineers on a fortnightly release cycle, guiding architecture, reusable components, API integration, code reviews and production readiness. Experienced in stakeholder communication, Agile delivery, mentoring and AI-assisted development using Claude Code and OpenAI Codex.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR, SSG), TypeScript, JavaScript (ES6+), Angular, AngularJS, HTML5, CSS3, SCSS, Tailwind CSS

Architecture & Leadership: Micro Frontends, Solution Design, Reusable Components, Technical Planning, Code Reviews, Mentoring, Stakeholder Communication

Backend & Data: Node.js, Express.js, RESTful APIs, GraphQL, MongoDB, Mongoose, PouchDB, Schema Design, Query Optimization

Security & Quality: Authentication, Role-Based Access Control (RBAC), Jest, Cypress, API and Integration Testing, End-to-End QA

Cloud & Delivery: AWS fundamentals (IAM, S3, EC2), Git, GitHub Actions, CI/CD, Docker, Kubernetes, Agile/Scrum, Jira

Monitoring: New Relic, Sentry, Log Analysis

Performance & AI: Lighthouse, React DevTools Profiler, Claude Code, OpenAI Codex, AI-Assisted Testing

Additional Frontend: Vue.js, Redux Toolkit, Zustand, TanStack Query, React-Konva

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Bix Bytes Solutions Pvt Ltd | Apr 2024 - Aug 2026

- Led six frontend and backend engineers to deliver QiKi Chats, Qik Shop, Qik Lounge and Gifting on a fortnightly release cycle, guiding technical design, architecture reviews and implementation standards.
- Designed micro frontends using React.js, Next.js and Angular to separate feature modules, enable independent releases and coordinate shared dependencies and cross-module integration.
- Built reusable components and shared UI patterns using TypeScript and SCSS, maintaining responsive, accessible and consistent experiences across modules.
- Developed Node.js and Express.js RESTful APIs for chats, lounge booking, product creation/deletion and cart workflows; defined API contracts, validation and error-handling patterns.
- Designed MongoDB schemas and optimized queries; implemented authentication and RBAC with tests for input validation, permissions and failure scenarios.
- Improved frontend performance using Lighthouse and React DevTools Profiler; supported GitHub Actions CI/CD deployments and production troubleshooting through logs and configuration checks.
- Used Claude Code to develop Booking Lounge save and undo/redo QA scenarios, identifying a state-restoration defect before release; mentored engineers through code reviews and pairing.
- Coordinated shared dependencies, UI consistency and cross-module integration across communication, shopping, gifting and booking features.
- Built interactive Booking Lounge layouts with React-Konva, supporting zoom, save and undo/redo functionality.

PROFESSIONAL EXPERIENCE - CONTINUED

Technical Lead | Robosoft Technologies Pvt Ltd | Oct 2017 - Oct 2023

- Led frontend delivery using React.js, Vue.js and Angular across enterprise and consumer projects, guiding architecture, project setup, reusable patterns and engineering quality.
- Delivered PayPay Coupon Corner interfaces and Jest unit tests, supporting feature quality and frontend maintainability.
- Led sprint planning, code reviews and mentoring; contributed performance and security improvements for Ola Electric and coordinated frontend/backend delivery.
- Established React.js and Vue.js frontend foundations for FNK Food and FNK Payment, including reusable components and subscription, billing and payment flows.
- Built CricCorp live coverage features and backend APIs using Node.js, Express.js and MongoDB to support live updates, commentary and player statistics.

Application Developer | IBM India Pvt Ltd | Oct 2015 - Sep 2017

- Maintained and enhanced AngularJS enterprise applications for Heineken task management and AT&T appointment scheduling.
- Implemented business-driven UI enhancements and responsive screens supporting task management and appointment workflows.
- Integrated backend REST APIs and resolved application defects to support reliable frontend behavior.
- Used Sonar code-quality analysis to improve maintainability and address code-quality issues.
- Refined existing UI behavior and application screens to address business requirements in task management and appointment scheduling.
- Investigated frontend issues across UI behavior and REST API integration, implementing fixes within the existing application architecture.

Web Developer | Theorem India Pvt Ltd | Mar 2013 - Sep 2015

- Developed client web applications and CMS templates for Yodle using HTML, CSS, JavaScript and jQuery.
- Built reusable frontend components and custom layouts to meet client website requirements.
- Implemented bug fixes and collaborated with testing teams to validate frontend functionality.
- Customized CMS page templates and layouts to support client-specific content and presentation requirements.
- Implemented interactive page behavior using JavaScript and jQuery, alongside HTML structure and CSS styling.
- Maintained existing website components and refined layouts while preserving consistency across client pages.

SELECTED PROJECTS

QiKi | Social Media, Communication & E-Commerce
React.js, Next.js, TypeScript, Angular, Node.js, MongoDB. Integrated micro frontends across communication, shopping, gifting and booking; built React-Konva booking layouts with zoom, save and undo/redo.

BC4 | Oil & Gas Field Service Management
Angular, PouchDB, SCSS. Built equipment and maintenance workflows with offline-first synchronization for remote technicians; managed client communication and delivery.

ANG | Retail Appointment & Order Management
React, SAP UI5 Web Components, Node.js, Express.js, MongoDB. Owned requirements, architecture, deployment and production support for catalogue, booking and order workflows.

EDUCATION & LANGUAGES

Master of Computer Applications | R N S Institute of Technology, Bengaluru (VTU) | 2011

B.Sc., Physics, Chemistry & Mathematics | AV Baliga Arts and Science College | 2008

Languages: English, Hindi, Kannada
