Ashok Naik

Senior Full Stack Frontend Engineer | Technical Lead | AI-Native Software Development

Udupi, India | +91 8494948432 | ashumnaik@gmail.com | linkedin.com/in/ashoknaik | github.com/Ashok-Naik246

PROFESSIONAL SUMMARY

AI-native Senior Full Stack Frontend Engineer and Technical Lead with 12+ years building enterprise-grade web applications across social commerce, retail, media, oil & gas and payments. Deep expertise in React.js, Next.js, TypeScript and JavaScript (ES6+), with hands-on Node.js and Express.js backend integration, REST and GraphQL APIs, micro frontends and reusable component libraries. Led six frontend and backend engineers delivering QiKi on a fortnightly release cycle, owning architecture, API contracts, authentication and RBAC, CI/CD, performance and production support. Uses Agentic AI and AI coding assistants (Claude Code, OpenAI Codex) across the SDLC for code generation, code reviews, debugging, test generation and root cause analysis.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR, SSG), JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, Angular, Vue.js, Redux Toolkit, Zustand, TanStack Query, React-Konva

Frontend Architecture: Micro Frontends, Reusable Component Libraries, Design System Patterns, Responsive and Accessible UI, Performance Optimization

Backend & Integration: Node.js, Express.js, REST APIs, GraphQL, Middleware, API Adapters, Authentication, Authorization, Session Management, RBAC, Error Handling

Databases: MongoDB, Mongoose, PouchDB (offline-first), Schema Design, Query Optimization

AI-Assisted Engineering: Agentic AI, Claude Code, OpenAI Codex, AI Code Generation, AI Code Reviews, Test Generation, Debugging, Root Cause Analysis

Testing: Unit Testing (Jest), Integration Testing, API Validation, End-to-End Testing (Cypress), End-to-End QA, Regression Testing

DevOps & Cloud: CI/CD (GitHub Actions), GitHub, GitLab, Docker, Kubernetes, AWS (IAM, S3, EC2)

Monitoring & Delivery: Lighthouse, React DevTools Profiler, Log Analysis, Production Support, Agile/Scrum, Jira

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Bix Bytes Solutions Pvt Ltd | Apr 2024 – Aug 2026

• Led six frontend and backend engineers to deliver Chats, Qik Shop, Qik Lounge and Gifting for QiKi on a fortnightly release cycle, owning technical design, architecture reviews and engineering standards.

• Designed a micro frontend architecture with Next.js and React.js to separate feature modules, enabling independent releases and reducing cross-team coordination.

• Built reusable UI components and shared component patterns with TypeScript, Zustand and SCSS, ensuring responsive, accessible and consistent UI across modules.

• Developed RESTful APIs, middleware and integration layers with Node.js and Express.js for chats, lounge booking, product and cart workflows, with request validation and consistent error handling.

• Defined API contracts and error-handling patterns with backend teams; designed MongoDB schemas and optimized queries to improve API response times.

• Implemented authentication, authorization and role-based access control (RBAC) for application APIs, with tests covering input validation, access permissions and failure scenarios.

• Used Agentic AI tools (Claude Code, OpenAI Codex) for code generation, refactoring, code reviews, debugging and test generation; AI-driven QA on Booking Lounge save and undo/redo flows caught a state-restoration defect before release.

• Improved web performance using Lighthouse and React DevTools Profiler; supported CI/CD deployments with GitHub Actions and production issues through configuration checks, log analysis and root cause analysis.

• Mentored engineers through code reviews, pairing and guidance on frontend, full stack and AI-assisted engineering practices.

PROFESSIONAL EXPERIENCE · CONTINUED

Technical Lead | Robosoft Technologies Pvt Ltd | Oct 2017 – Oct 2023

• Led frontend teams delivering consumer and enterprise applications across retail, media and payments, owning architecture, project setup and technical delivery.

• Set up React.js and Vue.js frontends for FNK Food and FNK Payment from scratch, including subscription, billing and payment flows and a reusable component foundation.

• Built CricCorp live coverage features and backend APIs with Node.js, Express.js and MongoDB; led sprint planning, stand-ups and frontend/backend integration.

• Delivered PayPay Coupon Corner interfaces with unit tests (Jest); drove performance and security improvements and PR reviews for Ola Electric.

• Mentored junior developers and enforced code quality standards across projects for Flipkart, GCN Discovery, RadYes and Room to Read.

Application Developer | IBM India Pvt Ltd | Oct 2015 – Sep 2017

• Maintained and enhanced enterprise applications for Heineken task management and AT&T appointment scheduling using AngularJS.

• Implemented responsive UI and REST API integrations; resolved defects and improved maintainability using Sonar code-quality analysis.

Web Developer | Theorem India Pvt Ltd | Jul 2013 – Sep 2015

• Developed client web applications and CMS templates for Yodle using HTML, CSS, JavaScript and jQuery, building reusable components and custom layouts.

SELECTED PROJECTS

QiKi | Social Media, Communication & E-Commerce: Coordinated shared dependencies, UI consistency and cross-module integration across micro frontends; built interactive Booking Lounge layouts with React-Konva, including zoom, save and undo/redo. Next.js, React.js, TypeScript, Node.js, MongoDB

BC4 | Oil & Gas Field Service Management: Built equipment and maintenance management with an offline-first architecture (PouchDB) that syncs on reconnect for remote technicians; managed client communication and delivery. Angular, PouchDB, SCSS

ANG | Retail Appointment & Order Management: Owned the full stack lifecycle from requirements and architecture to deployment and production support, building catalogue, booking and order workflows. React, SAP UI5 Web Components, Node.js, Express.js, MongoDB

CricCorp | Cricket News & Live Coverage: Built live updates, commentary and player statistics, integrating Node.js, Express.js and MongoDB APIs for live data. React.js, Redux, TypeScript

EDUCATION & LANGUAGES

Master of Computer Applications (MCA) | R N S Institute of Technology, Bengaluru (VTU) | 2011

B.Sc., Physics, Chemistry & Mathematics | AV Baliga Arts and Science College | 2008

Languages: English, Hindi, Kannada
