PROFESSIONAL SUMMARY

Technical Lead with 12+ years of experience building web applications across social commerce, retail, media and payments. Led six frontend and backend engineers to deliver Chats, Qik Shop, Qik Lounge and Gifting for QiKi. Combines React.js, Next.js and TypeScript frontend development with Node.js, Express.js and MongoDB backend experience, alongside micro frontend architecture, API integration, code reviews and mentoring. Supports fortnightly releases with performance checks and AI-assisted end-to-end QA using OpenAI Codex and Claude Code.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Zustand, React-Konva

Backend & Data: Node.js, Express.js, RESTful APIs, MongoDB, PouchDB, Role-Based Access Control (RBAC)

Architecture & Leadership: Micro Frontends, Frontend Architecture, Team Leadership, Code Reviews, Mentoring

AI-Assisted Engineering: OpenAI Codex, Claude Code, Code Generation, End-to-End QA

Cloud: AWS Fundamentals: IAM, Amazon S3 Buckets, Amazon EC2 Instances

Performance & Delivery: Lighthouse, React DevTools Profiler, Continuous Integration and Delivery (CI/CD), Agile Delivery, Jira

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Bix Bytes Solutions Pvt Ltd | Apr 2024 - Aug 2026

- Led six frontend and backend engineers to deliver Chats, Qik Shop, Qik Lounge and Gifting for QiKi on a fortnightly release cycle.
- Designed micro frontends to separate QiKi feature modules, enabling independent releases and reducing coordination between feature deliveries.
- Developed RESTful APIs using Node.js and Express.js for Chats, Lounge booking, product creation and deletion, and cart workflows, with request validation, consistent error handling and frontend integration.
- Designed MongoDB schemas and queries for application workflows; optimized database queries and API processing to improve backend response times.
- Implemented authentication and role-based access control (RBAC) for application APIs; developed tests for input validation, access permissions and failure scenarios.
- Improved QiKi website performance through frontend optimization, using Lighthouse and React DevTools Profiler to assess page performance and component rendering.
- Used Claude Code to develop QA scenarios for Booking Lounge save and undo/redo flows, identifying a state-restoration defect before release.
- Reviewed API contracts and database changes, mentored engineers and supported deployments through configuration checks, log analysis and troubleshooting.

PROFESSIONAL EXPERIENCE - CONTINUED

Technical Lead

Robosoft Technologies Pvt Ltd | Oct 2017 - Oct 2023

- Led frontend teams delivering consumer and enterprise applications across retail, media and payments, overseeing architecture, project setup and technical delivery.
- Delivered PayPay Coupon Corner interfaces and unit tests; led CricCorp sprint planning and frontend/backend integration.
- Led frontend architecture for FNK Food and FNK Payment applications, including subscription and payment flows.
- Contributed to Ola Electric vehicle exploration and test-drive booking features, including performance and security improvements.

Application Developer

IBM India Pvt Ltd | Oct 2015 - Sep 2017

- Maintained and enhanced client applications for Heineken task management and AT&T appointment scheduling.
- Implemented responsive UI enhancements and REST API integrations; resolved defects and improved code maintainability and performance.

Web Developer

Theorem India Pvt Ltd | Jul 2013 - Sep 2015

- Developed client web applications and CMS templates for Yodle using HTML, CSS, JavaScript and jQuery.
- Built reusable components and custom layouts, resolved defects and collaborated with testing teams to deliver frontend functionality.

SELECTED PROJECTS

QiKi | Social Media, Communication & E-Commerce

- Coordinated shared dependencies, UI consistency and cross-module integration across communication, shopping, gifting and booking modules.
- Developed interactive Booking Lounge layouts using React-Konva, including zoom, save and undo/redo functionality.

BC4 | Oil & Gas Field Service Management

- Developed equipment and maintenance management capabilities for field service operations.
- Implemented offline-first functionality using PouchDB to support remote field technicians; managed client communication and coordinated project delivery.

CricCorp | Cricket News & Live Coverage

- Developed live updates, commentary and player statistics interfaces; integrated Node.js, Express.js and MongoDB APIs for live data management.

EDUCATION

Master of Computer Applications | R N S Institute of Technology | 2011

B.Sc., Physics, Chemistry & Mathematics | AV Baliga Arts and Science College | 2008

LANGUAGES

English, Hindi, Kannada
